Explore up to 50 kilometres of the remote Zambezi and Chobe riverine ecosystems. Enjoy unobstructed views as you cruise under the wide blue sky; gliding past elephant, buffalo, hippo and more in this incredible region that's home to one of the greatest concentrations of animal and bird species in Africa.

EXPERIENCE

The Chobe River supports an array of African game, plant and bird life, including one of the greatest concentrations of elephant on the continent.

From the boats you will see these mighty giants as well as hippos and crocodiles, and a variety of other wildlife gathering at the water to drink.

Cruising along a river in a rich wildlife area, whilst sipping on a drink, is the ultimate in safari decadence. The opportunity exists to partake in the normal safari activities and fishing but there is something special about returning to your remote accommodation on the water.
