

ASILIA AFRICA

5-NIGHTS NGORONGORO CRATER & SERENGETI SAFARI

Founded in 2004, Asilia Africa has become a key player in the African tourism industry, offering a wide range of high-quality safari experiences and eco-friendly accommodations in some of the continent's most iconic and pristine wilderness areas.

We believe tourism should be used for good and, when practiced responsibly, can be a driving force in both the conservation and development in East Africa. Asilia is known for making bold, and often pioneering, investments into areas that are ecologically and economically vulnerable, we aim to turn these places into viable conservation economies benefitting both the local communities as well as the environment.

Your itinerary over 5 nights will showcase Tanzania's most well-known and sought after safari areas - the Ngorongoro Crater and Serengeti National Park.

When

27 April – 2 May 2025

Buyers

USD1,650 per person per night
