

NATURAL SELECTION

CLASSIC BOTSWANA

Hyena Pan | Skybeds | Mbamba | Mokolwane

With a variety of land and water-based activities in three game rich areas, you can look forward to a rewarding wildlife experience on this trip. Your adventure starts at Hyena Pan and Skybeds, where all the elephant action is.

Mbamba, in the NG12 concession in the northern parts of the Delta offers an impressive year-round density and variety of wildlife, including rare and sought-after species. Here the wildlife never stops.

From here you head out by helicopter to Mokolwane in the southern Okavango Delta. This is leopard country! Tucked away in 180 000-hectares of wilderness in the Xudum concession it boasts the third highest density recorded anywhere in Africa, making this small relaxed camp, big on cat adventure.
