

NATURAL SELECTION NAMIBIA FLYING

Kwessi Dunes | Hoanib Valley Camp | Shipwreck Lodge

Namibia is awe-inspiringly impressive from all angles, but if we had to choose one way to marvel at the magnificent landscapes, it would be from a small plane, high up in the skies. This Namibia flying safari is the perfect way to travel across this vast and often unforgiving terrain.

For six days, you'll travel across Namibia on a series of short flights. Experience three exceptional camps, in three vastly different landscapes, with the option to add on an extra two nights in the Etosha Heights Private Reserve.
